M E M O R A N D U M

February 1, 1985

TO: Local Jurisdictions, State Agencies, and Other Interested Parties

FROM: James F. Ross, Director *JFR*

SUBJECT: DRAFT PERIODIC REVIEW SCHEDULE

The recently-adopted Periodic Review Rule (OAR 660-19-000), which has been widely circulated, requires the Commission's periodic review schedule to be developed in consultation with the affected local governments and state agencies. Enclosed you will find the Department's proposed draft periodic review schedule. This schedule was prepared using the priorities and considerations as set forth in the Rule. Generally, jurisdictions acknowledged for more than five years are to be taken first, followed by jurisdictions acknowledged prior to Goal amendments and new Rules, then jurisdictions acknowledged after Goal amendments and new Rules and not in the expedited review category (as defined by the Rule), and finally, jurisdictions acknowledged after Goal amendments and new Rules and subject to expedited review. In addition, we considered regional factors and local plan update cycles (to the extent we are aware of them), as permitted by ORS 197.640.

If you believe that this schedule would pose a significant hardship or if your proposed internal plan update process conflicts with this schedule, please notify us by February 22, 1985, so that we may consider modifications before final Commission consideration of the schedule at its March 7-8, meeting. The Department anticipates mailing out the final adopted schedule along with notifications to the first group of jurisdictions on the list on April 1, 1985. These notifications will explain the Periodic Review requirements in more detail. On September 30, 1985, the first group of jurisdictions must submit the results of their periodic reviews showing compliance with the periodic review factors set forth in the Rule. Notifications after April 1 will be approximately six weeks apart through the end of 1986 with expected submittals occurring 180 days from notification period. The schedule

shows jurisdiction submittal dates thereafter only for six-monthly periods. More specific submittal dates will be developed at a later date for these jurisdictions.

In the list below, the dates following the local jurisdictions represent acknowledgement dates. The underlined dates represent submittal due dates.
